## SCHOOL DONATIONS OPERATIONAL POLICY

### **Policy statement**

Kaiapoi High School welcomes donations from parents and from the community, including donations from community-based Trusts.

Donations enhance the educational opportunities the School can provide, contributing to the fulfillment of the strategic goals of student achievement and preparation for life in a positive learning environment.

The School requests an annual donation per child from parents. This is in recognition that the government's funding formula is inadequate to provide the balanced education expected by the School's community.

The Board of Trustees will set the donation for the following school year as part of the annual budgeting round.
